Honest conversations with men — documented with care. hearmenspeak.com

WHAT WE DO

Hear Men Speak is a storytelling and wellness platform documenting honest conversations with men about mental wellness, fatherhood, relationships, purpose and identity, brotherhood, and the things men usually carry quietly. An initiative of Akinboro Media Group LLC.

WHAT WE BRING TO YOUR EVENT

- **A recording station**
Professional audio and video capture, run by our team, set up in a quiet corner of your venue.
- **A trained interviewer**
Conversations led with care — no ambush questions, no editing men into a headline.
- **Content you can share**
Consent-cleared clips and quotes delivered back to your organization within two weeks.
